Enterprise Information Resources Inc.™ Announces EIR DataTools™

Enterprise Information Resources Inc.™ today announced the availability of **EIR DataTools™** (previously EIR CompTools™). With additional features, customers are able to automate the end-to-end data preparation for SAP® SuccessFactors® talent management solutions, including Performance and Goals.

EIR DataTools save time and ensures data accuracy for the successful implementation and support of an organization's talent management process. **EIR DataTools** automate common data-preparation challenges including data from multiple sources, detection and correction of data errors, handling of exceptions, and sophisticated calculations and transformations.

EIR DataTools provide seamless support for SAP SuccessFactors Performance and Goals, Compensation, Variable Pay modules and features such as calibration and role-based permissions.

"Many organizations require special processing of their data to support their unique situations but this can lead to significant manual work arounds. Our tools work seamlessly with the cloud to efficiently automate end-to-end processes," said France Lampron, president of Enterprise Information Resources Inc. "With **EIR DataTools** customers can leverage the rich features of the SAP SuccessFactors solutions.
